

Product sheet

Soundtile tactile objects informing, type MTB-02 and MTB-07

Summary product description

Sound tile for use as object marker at check-in/check-out columns, counters or ticket machines for the benefit of persons with visual impairments.

Product code

MTB-02, for use in cement bed/concrete (element).
MTB-07, for use in sand bed.

Field of application

Outdoors and indoors.

Material

Aluminium, anodised and sandblasted.

Tile is topped up with concrete; using a plastic blister, a hollow chamber is created which produces a distinctive sound when in contact with a cane or shoe.

Colour

Silver/white, diffusely reflective for high attention value with residual vision.

Dimensions

300 x 300 x 20 mm (MTB-02)
300 x 300 x 65 mm (MTB-07)

Profile

16 x anti-slip dot profile of 4 dots in a diamond pattern.

Required number of sound tiles

Object marking is 600 x 600 mm: $2 \times 2 = 4$ sound tiles.

Installation in a sand bed

Arrange tiles on a bed of sand which is compacted and laid under the correct profile. To keep the sound box intact, do not tap with a hammer or vibrate.

Installation in a cement bed/concrete (element)

Mill or create a recess using polystyrene (or equivalent) having the dimensions of the object marking + 5 mm L x W x H. Affix the sound tiles with adhesive.

Applicable guideline

Product dimensions and profile can be fully adjusted to national standards or requirements.
